BOYS and GIRLS Divisions 1 and 8 MIXED						Average/Age on September 1st 2021							
CLASSIFICATION													
DIVISION		AVERAGE		AGE		BONUS		DIVISION		AVERAGE		AGE	
						GIRLS							
1	Mixed		190 > and up		24 or younger		7						
2	B		170 - 189,99		21 or younger			3	G		170 - 189,99		21 or younger
4	B		150 - 169,99		21 or younger			5	G		150 - 169,99		21 or younger
6	B		130 - 149,99		16 or younger			7	G		130 - 149,99		16 or younger
8	Mixed		< 129,99		13 or younger		0						

* **The classification by division and/or age is as follows:**

A player with an average 164 and 13 years old, will play in division 4 or 5 because it corresponds to his/her **average**, and so he/she too has a **challenge** in the tournament.

Example:

A player of 16 years with an average of 123 is assigned to division 6 or 7, while division 8 is only accessible to players with this average if one is 13 years or younger.

A player of 17 years with an average of 143 is assigned to division 4 or 5, while division 6 and 7 is only accessible to players with this average if one is 16 years or younger.

We would thus avoid an unequal distribution is getting between average and age and older youth in terms of the average between the younger players.

SERIES SCHEDULE

- * Foreign participants **living outside a radius of 250 km (155 Miles)** from the bowling alley, **are primarily playing on Friday and Saturday before the finals.** Other participants play in the remaining series.
- * The above rule applies up to 1 week before the start of the tournament **for Dutch and foreign participants who live within a radius of 250 kilometres.** For available open spaces, after this date, everyone can enroll.
After registration shifts to another series are no longer possible. If a registration is cancelled a new registration can not be re-registered.
- * The series of the first three weekends are generally reserved for participants from the Netherlands and Belgium, while the series in the last weekend are reserved for players from other participating countries. Should there at the start of the tournament still places available in the series of the last weekend, the organization decides on any placement.
- * We will endeavour to place all participants, who subscribed as a group, are placed together. Any special requests, within the possibilities described will be honoured wherever possible. Unfortunately despite all our efforts we will not be able to make everyone happy.

HUMMELINK-YETJE CHAMPION OF CHAMPIONS

- * The Hummelink-YETJE Champion of Champions, who will be the overall champion and will be placed with his name on the Hummelink-YETJE Cup. The prize winner will receive a small replica.
The Hummelink-YETJE Champions Championship will be played as a knockout competition with the winners out of every division. The knockout is always in a "one ball roll" played with the lowest falling until the ultimate winner remains.
- * **Playing style:** Player division 8 starts and throws one ball, new set of pins, player division 7 throws one ball, new set of pins etc. After all players from each division (m/f) have thrown one ball the player with the lowest score falls. We start with the next round with now only seven players. We start again with the player of the remaining lowest division. So we will continue until the ultimate winner is known. He/she may call themselves Hummelink-YETJE Netherlands Champion for one year.

BOWLING LICENSE AND AVERAGE

- * Age on **September 1st 2021**.
- * For players who are exclusively members of the NBF, the average listed on the (digital) **bowling license 2021-2022**, is determinative. If no average is mentioned on the pass, an official statement must be presented, in which the average over at least 21 games is listed. This statement should not be older than a fortnight, the date of issue must be stated here.
- * For players who are members of the BBSF and/or the DBU and have previously participated in Dutch tournaments, the tournament averages are decisive for them as determined by the NBF for the **2021-2022 season**. If they have no data from them, the average applies to the bowling pass of the federation concerned, provided that it is calculated over at least 21 games. For players who are members of several federations, the highest pass average is used.
- * If required any bowler could be asked to prove his/her age through **passport/travel document** or birth certificate.
- * If no annual bowling average of your National Federation can be shown at registration, the player plays in the highest division.
- * Players who want to play in a higher division should indicate this at registration. During the tournament, this is no longer possible. Players can only play one division higher.
